

THE HAYTI HERALD.

VOL. 2.

HAYTI, MISSOURI, THURSDAY, NOVEMBER 18, 1909.

NO. 4.

Pemiscot Co. Teachers' Ass'n.

The Pemiscot County Teachers' Association met in Hayti Thursday, November 4, and was called to order by Supt. B. S. Stearns.

The programme was regularly carried out.

Rev. T. G. Fallin, in well chosen and hearty good feeling, welcomed the teachers to Hayti.

R. E. Seitz was chosen president, A. P. Kersey vice-president and Alice Cardwell secretary.

On taking the chair Mr. Seitz talked with interest, for a few minutes, on the necessity for higher education for the grammar school.

In the absence of the normal representative Mr. Stearns gave a talk on the State Reading Circle Course, urging the teachers to continue professional culture, and urging systematic work in the adopted reading course.

In the afternoon session, a discussion of classroom management was led by Miss Vinyard, which was followed by animated discussions by members of the association.

Miss Miller gave a very typical illustrated lesson in reading, which was excellent in many respects. It precipitated many interesting remarks, in which many practical and progressive plans were suggested.

The night session was held at the city hall, where B. Hugh Smith, Supt. of Scott county, gave an illustrated lecture to a well-filled house, and appreciative audience. It is a lecture which will acquaint the public with school affairs in a manner than nothing else can.

Friday morning L. J. Hall of the State Department of Jefferson City discussed school questions in a very able and interesting manner, citing the assembly to statistics and examples where county graduation of the 8th grade had been successful and had been the means of young men and women preparing themselves for better citizenship.

On Friday afternoon Judge Sterling H. McCarty favored the association with some businesslike remarks.

Mr. Hargrove then gave an illustrated lesson in arithmetic using, beginning with fractions as a basis.

Mrs. Morris also gave an illustrated lesson in geography, showing how she made comparisons of different countries.

Both lessons were nicely handled and brought out some pertinent questions, and discussions of the same.

Friday night's session was again held at the city hall, where Pres. W. S. Dearmont of the Cape Girardeau

Swan's Meat Market, at the O. K. or Adams stand, opened for business Tuesday. All their fixtures are not in yet, but they are putting in a first-class outfit and are opening up to stay. They already have their gasoline engine in place, and expect other fixtures soon.

Mrs. J. A. Myres and Mrs. V. B. Lavol of Crpe Girardeau have returned after a week's hunt and report an enjoyable time, as well as several coons and ducks bagged to their credit. Mrs. Myres accompanied Mrs. Lavol to her home in Cape Girardeau to spend a few days.

Judge Riley Henderson of Concord was in Hayti Saturday, and renewed his subscription. The Judge happened to be in Cairo just in time to see the big lynching last week.

Lawyer J. R. Brewer of New Madrid passed through Hayti Sunday, on his way to Caruthersville.

S. E. Mo. Teachers' Association.

The thirty-fourth session of the Southeast Missouri Teachers' District Association will convene at Fredericktown, Missouri, November 25, 26 and 27, 1909.

It has been the aim of the programme committee to make the association one of pleasure and profit.

The questions, for discussion, are such as confront every teacher.

The Department of Superintendents has questions that every Superintendent and teacher under his administration should hear.

The secondary School Department will have questions of much importance discussed.

The people of Fredericktown are making preparations to entertain the teachers in such a manner that those who attend will ever remember this meeting as one of the most pleasant and profitable in the history of the Association. B. Hugh Smith, Superintendent of Scott County Schools, will give his illustrated lecture on "School Supervision."

This is a lecture that every Superintendent, teacher and patron in Southeast Missouri should hear. He shows what should be done, and is being done, and enables the promoters of education to measure themselves, and see if they are keeping up with the standard.

An evening's entertainment will be supplied by the Entertainment Bureau, which will be good.

Thursday afternoon a foot-ball game is to be arranged between strong high school teams. A visit to the mines will be offered, and opportunity to inspect them will be given you.

Come and take part in the discussions, enjoy yourself, make new acquaintances, have a hearty handshake and a word of good cheer for old acquaintances, and you will be glad you were there. "We get out of anything what we put in." Come.

Most truly and fraternally,
B. S. Stearns, President.

T. E. Brownfield returned on Monday of last week from Marshall, Mich., where he had been to visit his wife, and reports his son, Ernie, ill of typhoid fever.

Hon. C. A. Crow of Caruthersville passed through Hayti Sunday, on his way home from Portageville.

Mrs. Artie Hayes and granddaughter Wanda Graham, returned to Fredericktown Sunday.

ROCKS AND ROSES.

ONE WEEK IN A NEWSPAPER SHOP.

"Oh, waed mine enemy write a book."

The Hayti Herald is anything but selfish, narrow and contracted, spiteful or envious, but to give our readers an insight to daily newspaper experience, we publish the results of one week, and will say we appreciate the friends, also the enemies we have made. We have said nothing that we regret or would call back, but can add much to what we have said.

We publish the above letters
without names and without com-
ment, simply to show that for
every name lost a newspaper
gains many new ones, and that
in many instances the newspaper
is greatly relieved to get rid of
a name.

Can any other paper in the
county make such a substantial
showing?

normal school, delivered a very inter-
esting, inspiring and scholarly ad-
dress on "Men of Faith."

Saturday morning session was taken
up by considering questions that were
found in the query box.

Many questions confronting the
different teachers of the county were
discussed and answered by teachers and
also Pres. Dearmont.

Mr. Emberson, who was to discuss
agriculture in the public school, being

absent, Supt. Stearns took the floor
and discussed this phase of work
in a very earnest and interesting man-
ner. He also distributed literature on
the subject of corn growing, and of-
fered assistance to any who might
need it, in making them better acquaint-
ed with the handling of the subject in
school.

This concluded the association,
many expressing themselves that it
had been one of the best held in the

county.
